Re: Docket

Dear Commissioner Forese,
Number: E-01575A-15-0127

My name is John Torp and I live at 1620 San Marcos de Niza Dr. in Sierra Vista. I have a solar system on my home which was installed approximately one year ago.

Hopefully this letter is not too late to be considered. Very short notice was given by SSVEC.

At the time I purchased my system I was encouraged to do so by SSVEC, and they gave me a rebate after installation. Now they say that as a solar customer I'm not paying my fair share of infrastructure. I've been a customer of SSVEC for over 25 years, and surely have paid my share by now.

It seems to me that solar customers are being singled out unfairly as a rate class. I strongly object to that.

Secondly, SSVEC wants to grandfather existing customers by the date of activation of their systems instead of having any changes that are approved begin at the date of approval. That can make a huge difference for those who have long had solar systems. That has a serious negative effect on the solar contractors. As a solar system owner, I want my provider secularly in business in the years ahead in case I have any warranty issues.

Please do not approve this proposal by SSVEC. Thank you.

Sincerely,
John P. Torp
